

PocketSuite Product Updates Q1 2025

Big things are happening in your PocketSuite app! We heard your feedback and want to deliver, so we've rolled out some powerful new updates to make running your business smoother, faster, and more profitable. Check them out below!

Do It All On Desktop!

Have you checked out the new PocketSuite desktop app? Now, you can access our powerful **Calendar views** and **Smart Reports** right from your computer! Managing appointments and tracking business insights has never been easier. We've been making consistent updates to the design and functionality of our desktop site, so all your important info is just a click away. Work smarter wherever you are!

See What Your Clients See!

Curious about what your clients see when they use PocketSuite? Now, you can! With **PocketSuite Preview Mode**, you get a look at their entire journey, from booking services to signing contracts, paying invoices, and more. Our in-app video playlist walks you through every step, so it's easier than ever for you to keep clients coming back!

Access Your 1099-K Anytime!

If you received a payment through PocketSuite in 2023 or 2024, you can now access your 1099-Ks directly and securely from PocketSuite's mobile and desktop apps. PocketSuite will file a 1099-K with the IRS for accounts that meet certain requirements.
