- ***What are your processing fees?***
 - Our processing fees are among the lowest in the industry at 2.9% + 30¢ per transaction. It's a flat rate. There are no hidden fees.

- ***What if I am currently processing payments through Venmo, Zelle, Square, PayPal, or another payment provider?***
 - ***Venmo:*** With Venmo, when clients pay you using a credit card through Venmo, Venmo does charge a processing fee of 3%.
 - ***Zelle:*** Most clients opt to make payments with a credit card. It is not currently possible for clients to make credit card payments through Zelle.

- *Zelle & Venmo:* Neither Zelle nor Venmo can provide you with clean reports on just your client-related payments for taxes and your other accounting needs. However, suppose you have clients that prefer to process payments through Zelle or Venmo. In that case, you can accept client payments through those providers and then “Mark Paid” the appointment or invoice in PocketSuite so you can track all of your income in one place with beautiful reporting.
 - *Square:* Square has a higher processing fee than PocketSuite for online (keyed-in transactions) payments of 3.5% + 15¢ per transaction compared to lower PocketSuite rates: 2.9% + 30¢ per transaction. Online payments are typically collected when your client books you online and pays a deposit, purchases a package, pays for a subscription/membership, or pays an invoice. These payments are the majority of the payments that Pros process on PocketSuite.
 - *PayPal:* PayPal’s payment processing rate schedule [here](#) will likely make your head spin. Their fees vary based on the type of card, card-present vs. not present, location, and many other factors. However, for online payments (keyed-in transactions), PayPal’s rate is 3.49% + 9¢ per transaction compared to PocketSuite’s lower rate of 2.9% + 30¢ per transaction.
